ALISSA
JONES

"There are people that may come in and out your life, but it's the people that impact your life that produce the change you may have needed at the moment. Porshea was the person God assigned to me to birth my purpose and help me own and embrace my struggles as stepping stones. She pushed me when others gave up on me and since we met in 2009 I have been walking in my purpose. It takes a woman of character to embrace another woman as their sister/friend and pour into her so much wisdom and encouragement saying "No Matter What...I want to see you Win". Porshea, I truly thank you for pouring in me and giving me the authenticity of who you are. I'm forever grateful and so appreciative of our friendship."

KEISHA

"Knowing & working with Porshea Wilkins has pushed me to depths that I didn't know I had in both my professional & spiritual lives. Porshea has a God given gift of looking beyond the exterior & helping you to discover your purpose. Then her creative genius guides you to package & promote it to the masses! In mere months Porshea helped me to produce, market and sell my first prayer CD and designed a website for my ministry endeavors. Keisha Speaks & KPrays would not have the success it does without Porshea Wilkins."

WHEN DREAMS COLLIDE .COM

Whether a stadium of 105,000 professionals representing 90 countries in Las Vegas, an auditorium of 5,000 students in Texas, a conference room of 1,500 in Australia, 3,500 in South Africa, or a living room of 10 in Kansas, Jarrod and Porshea Wilkins haven't held back. They've traveled the world sharing their gift, leaving a trail of motivation, inspiration, transformation and more importantly, results along the way. Together, their journeys consist of managing books of business worth up to \$1.4 Billion, producing award winning sales results for fortune 500 companies and building organizations of over 50,000 leaders across multiple Continents, producing 10's of millions of dollars in revenue and millions in profit to date.

As individuals they're good, but as a couple they're great! Everything they do is centered around 4 Pillars: Kingdom, Business, Relationships & Purpose. They're husband and wife, business partners and best friends. Tag teaming on stage and at home with their daughter Chandler, and nieces and nephews when they come to visit. In their spare time they love watching comedies, traveling, eating ice cream and taking power naps on the couch in their favorite blankets.

We've been fortunate enough to build some of the most incredible relationships and truly have designed a life that we enjoy living. Nothing gives us more joy than teaching others how to do the same!
